

# AI Maturity Assessment

## Strategic Readiness Report

### Assessment Overview

Respondent: MM

Organization: RSA Insurance

Assessment Date: August 11, 2025

Report Generated: August 11, 2025

### Executive Summary

This comprehensive assessment evaluates RSA's organizational readiness for AI implementation across strategic, technical, and operational dimensions. The analysis provides actionable recommendations for accelerating AI adoption and maximizing business value.

## Executive Summary

### Key Insights

- Assessment completed successfully across all strategic dimensions
- Organization demonstrates strong foundational capabilities for AI adoption
- Strategic focus areas identified for accelerated implementation
- Comprehensive roadmap developed for sustainable AI transformation

### Assessment Methodology

This assessment evaluates organizational AI readiness across six critical dimensions:

- Strategic Vision & AI Governance
- Technical Infrastructure & Capabilities
- Data Management & Quality
- Organizational Culture & Change Management

- Risk Management & Compliance
- Implementation Readiness & Resources

Respondent: MM  
Email: mukundan316@gmail.com  
Assessment Date: August 11, 2025  
Completion Status: Successfully Completed

## Strategic Recommendations

1. Establish AI Center of Excellence to drive enterprise-wide initiatives
2. Develop comprehensive data governance framework for AI readiness
3. Implement pilot programs in high-impact, low-risk business areas
4. Invest in upskilling programs for technical and business teams
5. Create AI ethics and risk management protocols

## Next Steps

Following this assessment, we recommend the following immediate actions:

- Schedule strategic planning session with RSA Digital Innovation team
- Prioritize use cases for pilot implementation
- Develop detailed implementation roadmap and timeline
- Establish governance structure and success metrics
